January 23, 2024

Dear Prospective Pastor/Director of Student Ministries,

Our search team began meeting in January. We are spending time in prayer, listening to each other carefully and attempting to discern God's direction for the future of our students and the teen ministries at CCF. We will continue to solicit feedback from our current leaders, parents, students and the CCF body at large in attempt to listen to God's direction.

There are seven people who make up the search team. All of which have volunteered out of our love for teens. All are invested in the Student Ministry program and the impact students will have on the future Church. Because of that, we carry a tremendous interest in the overall effectiveness of the student ministry programs at CCF. We are aware of the essential role students play in the health and growth of the church body.

We have a process designed to help us learn about each person who applies. Of course, this will ultimately include phone calls, questionnaires, and other communication. But first and foremost, we are relying upon prayer and God's direction. We believe God has chosen the perfect person for us already.

Thanks for taking the time to review the materials on our site and praying about the potential of God bringing you to CCF.

Prayerfully,

The Student Ministries Search Team
